Scientometrics, Vol. 28. No. 3 (1993) 407-409

Index to Volume 28

No. 1

R. Rousseau (Oostende, Belgium)
Measuring Concentration: Sampling Design Issues, as Illustrated by the Case of Perfectly Stratified Samples 3

Terttu Luukkonen, R. J. W. Tijssen, O. Persson, G. Sivertsen (Helsinki, Finland, Leiden, The Netherlands, Umed, Sweden, Oslo, Norway)
The Measurement of International Scientific Collaboration 15

Y. Okubo (Paris, France)
Comments on Some of the Statements in the Article: The Measurement of International Scientific Collaboration by T. Luukkonen, R.J.W. Tijssen, O. Persson, G. Sivertsen, Scientometrics, 28 (1993) 15 37

Y. Yuthavong, K. Phornsadja, A. Chungcharoen (Bangkok, Thailand), *T. O. Eisemon, C. H. Davis* (Montreal and Ottawa, Canada)
Communication Strategies in Tissue Culture and Seed Research in Thailand 41

L. A. Rogers, J. Anderson (London, England)
A New Approach to Defining a Multidisciplinary Field of Science: The Case of Cardiovascular Biology 61

A. Uzun, A. Menard, M. E. Özel (Ankara, Adana and Gebze, Turkey)
Citation Status of Turkish Physics Publications in Foreign Journals: A Global Analysis 79

E. J. Rinia, C. de Lange (Utrecht, The Netherlands), *H. F. Moed* (Leiden, The Netherlands)
Measuring National Output in Physics: Delimitation Problems 89

R. J. W. Tijssen (Leiden, The Netherlands)
A Scientometric Cognitive Study of Neural Network Research: Expert Mental Maps Versus Bibliometric Maps 111

Elsevier, Amsterdam – Oxford – New York – Tokyo
Akadémiai Kiadó

INDEX TO VOLUME 28

No. 2

T. Braun, W. Glänzel, A. Schubert (Budapest, Hungary)
Scientometric Indicators Datafiles 137

R. P. Norris (Toronto, Ontario, Canada)
Authorship Patterns in CJNR: 1970–1991 151

G. S. Souza, E. R. Cruz, T. R. Quirino (Brasília, Brasil)
The Measurement and Assessment of Quality in Agricultural Research Institutions 159

Ye-Sho Chen, P. Pete Chong, Yueguo Tong (Baton Rouge, LA and Spokane, WA, USA)
Theoretical Foundation of the 80/20 Rule 183

J. Willems, E. Woudstra (Nijmegen and Twente, The Netherlands)
The Use by Biologists and Engineers of Non-Specialist Information Sources and its Relation to their Social Involvement 205

G. Lewison (Uxbridge, England)
The Contribution of European Community Less Favoured Region Research Outputs to Economic and Social Cohesion 217

No. 3

M. Bonitz (Dresden, Germany)
Comments on András Schubert Recipient of the 1993 Derek De Solla Price Award 233

D. H. Hall (Winnipeg, Manitoba, Canada)
The Science-Industry Interface in the Petroleum Industry: Correlation of Time Series of Indicators and Their Spectra, and Growth Modelling 237

D. K. Gupta (Addis Ababa, Ethiopia)
Collaborative Research Trend in Exploration Geophysics 287

Rosa Sancho (Madrid, Spain), *G. Bernal, L. Gálvez* (La Havana, Cuba)
Approach to the Cuban Scientific Activity by Using Publication Based Quantitative Indicators (1985–1989) 297

R. Senter, Jr. (Pleasant, Michigan, USA)
Factors in American State Government Spending on Research and Development 313

J. Maclean, Carmela Janagap (Metro Manila, Philippines)
The Publication Productivity of International Agricultural Research Centers 329

F. H. Herbstein (Haifa, Israel)
Measuring "Publications Output" and "Publications Impact" of Faculty Members of a University Chemistry Department 349

Eleonora P. Giorgi (London, U. K.)
Long Term Analysis of Citation Counts at the Micro-Level 375

Paula E. Stephan, Sharon G. Levin (Atlanta, Georgia, USA)
Age and the Nobel Prize Revisited 387

Short Communication

A. Pouris (Pretoria, South Africa)
Economies of Scale in Science & Technology Agencies 401

Index to Volume 28 407
